

# ***Clock of the Four Night Watches***

## ***An End Time Prophecy of Jesus Christ!***

**Rev 10:10,11**

Peter John Brandal

**SEPTEMBER 25, 2022**

**The 4 Harvest Groups**

Friends, the death of Queen Elizabeth II has propelled her son Charles into his new role as King over the United Kingdom, but only for a short time.

William will become the Antichrist by next Spring with the arrival of Revelation 13:11 on April 20, 2023 if indeed real time fulfillment converges with this passage on the *Clock*.

Alternatively, William may enter into his biblical role as Prince, which may be the case if his father does not pass or abdicate the throne.

The future Antichrist stands with his father in the Queen's procession

William may remain Prince, for example, were his father to create a new role in which William becomes his liaison to Parliament, a role that has not previously existed.

Obviously, William would never be referred to by world governments as the Antichrist, rather some impressive sounding title would be attributed to him, such as High Commander, His Excellence, or Chancellor.

It may be that Charles will be killed during the impact of the meteor at 2:58 PM on the *Clock* where it falls in late January of next year (if indeed it occurs at this vector point in real time), depending on his travels, at which point William would then become King.

The exact mechanics of how all this comes together is not nearly as important as knowing the identities of 666 and where we are on the timeline.

We are also looking for the next false flag to become a pretext for Obama's reinsertion to the US Presidency.

While some sort of national emergency may preempt the midterm elections in November, they may also go forward with marginal races tabulated in favor of the Marxists.

The primary purpose of this update is the most important area of end time prophecy for those who watch for the Lord's return — the words of Jesus about the end time harvest!

The four groups of harvest are represented by their associated crops:

1. Barley (Rev 6:6)
2. Wheat (Rev 6:6)
3. Grapes / Wine (Rev 6:6)
4. Olives / Oil (Rev 6:6)

The in-gathering must begin (and possibly end) within each respective crop season, as practiced for many thousands of years!

The in-gathering of most barley begins in the Spring, followed by wheat in the Summer, grapes in the Fall, and olives in the Winter.

In the previous update, I said it was my expectation that the exodus of Group 1 (barley) would occur in late February and that Group 2 (wheat) would have its exodus in early Spring where time code 36911 given by Jesus in Matthew 20 is vectored to the date of March 20, 2023.

The Holy Spirit has corrected me and clarified this sequence for a better understanding of the harvest, which is the key focus of this update.

The vision given to me was very compressed at the early stages of Critical Mass so that the exact sequence of various events was difficult for me to follow.

This update helps address such questions by applying the four crops listed in Revelation 6:6 as an overlay to the various groups of harvest.

In other words, the in-gathering of the crops should begin (and possibly end) within their crop-associated seasons!

The crop yields we see listed in Revelation 6:6 — barley, wheat, grapes (wine), and olives (oil) are given in their exact order of in-gathering to reflect the actual sequence of in-gathering for the saints themselves!

**SPRING BARLEY (GROUP 1)**

**The barley is harvested in the Spring, therefore I do not expect the catching up of Group 1 (the 144,000 Hebrew boys) to occur in late February as I previously thought.**

**Likewise, the wheat is harvested during the Summer and should begin shortly after the Summer Solstice in late June.**

**Grapes are not harvested until the Fall, after the Autumn equinox.**

**A final Winter harvest of olives will occur during the Winter months.**

**SUMMER WHEAT (GROUP 2)**

I have corrected a group of four paragraphs in the previous message to show a more consistent harvest progression, highlighting that text in color with an underline in case you would like to print it.

Late February may indeed bring about certain conditions necessary for the unfolding of events immediately afterward, however the third Trumpet must wait until early Spring where the catching up of the Man-child — the in-gathering of the first fruits — occurs at its appointed time.

---

There are several advantages for us in this crop schedule overlay because it places each harvest group inside a three month period of in-gathering between the change of the seasons.

There is, however, one exception with respect to the in-gathering of the wheat harvest, which are the Church saints in Group 2.

Jesus was explicit that a separation must occur within this group when five wise virgins enter the Marriage early and five others do not due to their failure to watch properly, as we read in Matthew 25:1-13.

The “virgin companions” in Psalm 45:14,15 enter into the King’s palace only after the King’s daughter herself goes into the marriage, a theme that may seem absent from the ten virgins parable until we read these words of caution by Jesus:

“Be ye as men who wait for their Lord when he shall return *FROM* the wedding, so that when he knocketh, they may

open unto him immediately.” (Luke 12:36)

The view held by many that Jesus was pronouncing condemnation upon those who miss going into the Marriage early is a false teaching of the modern Church.

The words we find at the end of each Marriage parable, “Many are called, but few are chosen,” refers to those who are chosen to enter the Marriage early, while those not chosen must wait until the Lord’s return *FROM* the wedding!

The words, “I know you not,” in response to those who knock on the door of the bridegroom’s chamber after the well prepared have departed, are not the same as his words of condemnation on the day of Judgment when he says to the wicked, “depart from me ye workers of iniquity, I never knew you.”

It is our failure to properly Watch that prevents recognition at the earliest point of entry into the Marriage, but in God’s great mercy, he has divided his end time harvest for all those who remain faithful!

Jesus has promised that he will bring us into his presence when he returns *FROM* the wedding to collect every waiting virgin, which is why the harvest must be divided.

The Wheat group contains both the prepared and unprepared, however their separation may require them to wait until the following Summer, at which time the King’s palace door will again open for them!

The removal of those who depart early will be followed by the resurrection of those asleep in Christ during the Fall, and are represented by the grapes in Revelation 14:18.

### FALL GRAPES (GROUP 3)

The Feast of Trumpets in early Hebrew culture was celebrated by the blowing of 100 or more trumpets, however the Fall crop is a harvest of grapes alone, therefore those who watch for a Fall Rapture are going to be disappointed.

This sequence of trumpet blasts during the Ten Days of Awe starts on Rosh Hashanah, and its purpose is to call forth the dead in Christ — by far the largest harvest group!

The harvest of grapes can only take place after Groups 1 and 2 representing barley and wheat have been gathered at their divinely appointed times!

The Winter harvest is the in-gathering of olives (Group 4) and represents those who are alive and remain, and is probably the smallest of all the harvest groups.

This final Rapture group (Group 4) and the Resurrection group (Group 3), are the two groups of harvest Paul refers to in 1 Thessalonians 4:16,17, thus he is not addressing the earlier

portions of harvest as they do not converge with the Lord's descent out of heaven.

The resurrection of the dead (grapes) must indeed come before the in-gathering of those who are alive and remain (olives) at the end, and that is Paul's sole focus in this passage

WINTER OLIVES (GROUP 4)

[Editor's note: Discussion below including chart placements for the Trumpets are a possible timeline for 2024 as we near the end of the Antichrist's 41st year on June 21, 2024!]

The multiplier I use to locate all 7 Trumpets along the timeline works by applying the placement of Trumpets with a known anchor point.

That anchor point is Clock time 2:58 PM, which appears to mark the second Trumpet.

This in turn would coincide with the removal of the barley at the 36911 convergence on March 20, 2023.

Only two such anchor points are needed to establish a single multiplier and the result is the table of harvest vectors shown in the graph below.

HARVEST GROUP	CROP	SEASON	90 DAY VECTOR	VECTOR FOCUS
ONE	Barley (144,000)	Spring	March 20, 2023 June 21, 2023	March 26, 2023
TWO (front end)	Wheat (Church Saints)	Summer	June 21, 2023 – Sept 22, 2023	July 16, 2023
TWO (back end)	Wheat (Church Saints)	Summer	June 20, 2024 – Sept 22, 2024	July 2, 2024
THREE	Grapes (Dead in Christ)	Fall	Sept 22, 2024 – Dec 21, 2024	Oct 4-14, 2024 (FOT)
FOUR	Olives (Alive and Remaining)	Winter	Dec 21, 2024 – Mar 20, 2025	March 15, 2025

NOTE: DATES IN THE CHART ABOVE ARE NOT DATES OF PREDICTED FULFILLMENT.  
A LATER FULFILLMENT WINDOW IS DISCUSSED IN THE JULY 28, 2024 SPECIAL UPDATE.

I hope it is clear why we are not expecting any portion of the harvest to occur in 2022, but rather in 2023 where Critical Mass first arrives on the *Clock* using the Daniel Key!

Remember that the crop cycle overlay points to harvest beginning in the Spring rather than in the Fall or some other season of the year.

Also, both focus dates for the divided wheat harvest occur in the month of July in consecutive years, however if we don't reach Critical Mass until the second half of William's 41st year in 2024, then the total period of harvest could well be shortened.

God bless as you continue to Hear what the Spirit is saying to the churches:

*"Behold, I come quickly!"* (Rev 3:11)

Peter John Brandal
