

**2024 SPECIAL UPDATE**

**NOTE: DATES DISCUSSED IN THESE MESSAGES REFLECT SCRIPTURE PLACEMENTS ON THE CLOCK AND ARE NOT DATES OF ACTUAL FULFILLMENT, BUT DATES TO WATCH.**

**DECEMBER 25, 2024**

**THE FEAST OF DEDICATION BEGINS**

Friends, President Trump's meeting with Prince William on December 8 converged with day 1,456 in the AM layer, reprising a 2014 meeting between the Prince and Barack Obama that year.

The December 9 vector has not passed without incident, as such developments bring us closer to Critical Mass.

The Feast of Dedication linked to day 1,456 brings us to the end of a two hour delay, although this observance, which begins on Christmas day, will continue through January 2nd.

Minute 458, which is passing on the Clock today, remains in effect until the day after Christmas – a reminder that the Feast of Dedication is as prophetically significant in 2024 as it was ten years ago!

If indeed the Clock end date marks the rise of the Antichrist in 2025 as I expect, the four part harvest will begin next Spring!

---

In the last update, I said we cannot measure time in the “black ring” because the Daniel Key only works inside the text of scripture, and while that is the case for the period between the AM and PM Clock layers, I now believe the Daniel metric can be used to give us future dates of interest.

Several remarkable Clock measurements seem to show an end point for the rule of the Antichrist just months after the Man-child, or the 144,000, reaches the age of maturity in the Spring of 2027!

This would point to a shortened 3 and one half year period, if indeed the Lord returns in the same year as the Man-child becomes an adult, perhaps even before completion of the future temple.

A shortfall of 143 days in the first 1,260 days of Revelation (Rev 12:6,14) restarted on November 5th to fulfill the prophesied half hour of silence in heaven that is also the final half hour on the Clock!

These 143 days will complete the prophesied protection afforded to Israel due to the re-election of President Trump – at least until the Clock ends on March 28, 2025.

What this suggests to me is that between the end of March and late May, where the reverse 1,260 day count from the next US Presidential election falls in the Spring, power in Washington will

shift from President Trump to Barack Obama, who the Clock has identified as the first beast of Revelation.

---

Before we look at future Clock times, I want to touch on the drone sightings and other UAPs that have been making a stir recently across the US.

The so-called disclosure being aired in Washington that pertains to non-human intelligence is actually a result of fallen angels who have been sent by Satan to deceive the masses before Jesus returns.

Strong delusion has been prophesied for this time and will lead to new laws designed to destroy the Church, imprison believers, and enforce the mark.

The fact that these are unpleasant things to think about is why we pray to be early in the harvest as Jesus instructed in Luke 21:36, for it is his will that we be early in the harvest rather than late!

---

Time on the Clock is a constant reminder that time in heaven is not equal to time on Earth, which is why the 23 verses between the 6th and 7th Seals are equal to 143.5 days but are described as “about a half hour of silence in heaven.”

Indeed, this half hour of silence in scripture measures almost exactly 33 minutes on the Clock, a feature I was unaware of until I discovered William’s bio-metric connection to Rosh Hashanah in 2014.

A short time ago, I was led to enter time on the Clock using the birth metrics of both Prince William and Barack Obama.

Before going further, let’s revisit a Clock time that shows how these measurements are both mathematical and thematic in nature, and how more than one individual can be uncovered in a single Clock matrix.

You may recall how the 7 Thunders of Revelation I published in 2021 used the number 666 to arrive at key metrics identifying the False Prophet, the first beast, and the Antichrist.

The common teaching of the modern Church is that the False Prophet is the second beast and that the first beast is the Antichrist.

I have covered this topic previously to show that neither the first or second beast is the False Prophet and that three individuals are required to form a false trinity.

I have also shown why I believe the words of Paul in 2 Thessalonians 2:4 describe the Papacy from which the False Prophet claims to be Christ on Earth while seated in Rome, not the Antichrist standing in the true temple.

For now, let's examine the following matrix to see how Prince William's 41st birthday links him to the 144,000 Hebrew princes and also to Obama's 666-adjusted birthday (November 26) at a differential constant of exactly 12 prophetic hours.

TIME QUERY	DATE QUERY	VERSE QUERY
3.315537	6/21/2023	231
MINUTES	CLOCK TIME	CLOCK TIME
332	3.32	3.32
DAYS (AM)	3.32	DAYS (PM)
1,440.9		4,570
AM LAYER	-12 HOURS	AM LAYER
11/26/2014	5/3/2006	11/26/2014
PM LAYER	+12 HOURS	PM LAYER
6/21/2023	1/14/2032	6/21/2023
230.998	Rev 14:2,3	9:03:03 PM

Note that the verse reference (230.998) is at exactly the end of Revelation 14:2 and the start of 14:3, where we find a reference to the 144,000 in verse three.

Also note that the day count in the AM layer of the Clock is almost exactly 1,440 days!

What is the meaning of these convergences to the number 144,000?

The trigger event for the rise of the Antichrist is the 2nd Trumpet, but it is also the trigger event for the catching up of the Man-child, or the 144,000, thus the takeover of the nations will begin even as 666 is becoming manifest!

---

Now let's look at a different kind of time vector using William's bio-metric of 30,123, referring to his day of birth in Microsoft's global date reference system.

When we look at the date of June 21, 1982 in a Microsoft spreadsheet, the value returned when viewing this date in number format is 30,123, meaning he was born 30,123 days after December 30, 1899.

Now let's divide his birth metric by 666 using a logarithmic value small enough to produce an appropriately scaled Clock time.

The following matrix shows the result of the following equation:  
 $= 301.23 / 6.66 - 24$

TIME QUERY	DATE QUERY	VERSE QUERY
21.22973	8/27/2027	476
MINUTES	CLOCK TIME	CLOCK TIME
683	9.23	9.23
DAYS (AM)	9.23	DAYS (PM)
2,968.1		6,097
AM LAYER	-12 HOURS	AM LAYER
2/1/2019	7/9/2010	2/1/2019
PM LAYER	+12 HOURS	PM LAYER
8/27/2027	3/21/2036	8/27/2027
476	STRONGS G476 Opponent, Adversary	2:04:52 AM

NOTE THAT DATES PAST THE CLOCK END DATE MAY APPEAR IN BOXES NOT LABELLED TO REFLECT THIS

The result of this calculation is 45.22973, then we subtract 24 hours to adjust for military time, giving us 21.22973 as shown above.

The Clock then converts 21 hours to standard time (9:23) before providing a verse metric that (due to being past the Clock end date) falls outside the text of Revelation.

Note that Clock times 45.229, 21.229, and 9.229 all produce the same vector dates, just as switching between military and standard time formats result in equivalent times on a digital clock.

There is a lot going on here that merits our attention, so let's break it down.

First, the upcoming date of interest in this matrix is August 27, 2027, which is four months after the Man-child reaches

adulthood during the Spring of that year.

What makes this vector significant is that when we reach 45.22973 on the Clock, William himself will be 45 years of age, and incredibly, the fractional value of this vector arrives just 16 days earlier than will William in early September!

The fact this convergence occurs shortly after the Man-child reaches maturity means that William's rule over Europe (and Obama's rule in America) may well come to an end at that time!

Yet another amazing feature of this matrix is that the fractional value .22973 is a logarithmic match to Barack Obama's biometric of 22,976 resulting from his 666-adjusted date of birth on November 26, 1962, with a variance of just three days!

Finally, note that the Strong's Greek citation for the number 476 shown in the verse box is a word that means *adversary*, or *opponent*.

I wanted to share this time study with you because it appears to show William's one hour rule over Europe coming to an end

earlier than we might have expected, and may place the start of that one hour (260 days) in December of 2026.

In the new year, I will share additional time vectors that may have significance in the Winter months, and also during the Spring, where I expect us to reach the start of early harvest.

God bless as you continue to hear what the Spirit is saying to the churches:

*“Behold, I come quickly!”* (Rev 3:11)
