

Obama Rising (Remix)

He walked in shadows cast by time
An agent of the system, party to their crimes
Waiting on the sidelines, standing by the phone
Waiting to be turned into steel and silicone!

Circuits humming beneath his skin
A darker world would now begin
Thoughts generated by a nuclear spark
Inside a soul manufactured in the dark!

Oh Obama! rising anew!
A metal heart but a sky not so blue
Synthetic promises in a changing land
A man re-made with an aluminum hand!

His image like a shadow beneath the stars
Connected by wires and chips so hard
The truth calculated by the robot inside
No more human spirit left to hide!

They said he changed but he's still the same
A claim to power with a brand-new game
Reshaping the world by delusional tricks
His veins configured into 6-6-6!

Oh Obama! rising anew!
A metal heart but a sky not blue
Synthetic promises in a changing land
A man re-made with an aluminum hand!
