Friends, this is a Clock Prophecy Alert for October 25, 2025.

In this message, I want to share why I believe we are almost at the end of the 2 hour delay we have often discussed in this updates.

Before we get to that, you may recall that in 2012, I put out an alert that the Rapture could occur during that year based on the arrival of midnight on the Clock in late May.

Of course, this was during the AM layer of the Clock before the revelation of the 7 Thunders.

I explained to my readers that midnight was associated with an early Rapture during the divided harvest in the parable of the ten virgins.

But the midnight hour was indeed an hour, which on the Clock is equal to nearly 9 months, which is why it isn't possible for us to know either a calendar date or the year in which harvest begins.

Remember that the door into the Marriage opens only after half the virgins go into the marketplace in search of oil, a search that takes them away from the door into the Marriage!

Does the door open at 4 AM? 5 AM? Jesus does not tell us!

As you know, I rely on the religious Hebrew calendar as the foundation for my eschatology, which is why I teach that Spring foreshadows the start of the ingathering, just as it did the ascension of Jesus.

Those who teach a Rapture date confined to a particular Feast are forgetting that Jesus compared this time to the days (plural) of Noah.

Noah's forty days on the water foreshadowed the forty years in the wilderness endured by the Israelites after God sent plagues of judgment upon Egypt.

Now fast forward to 2021 when the 7 Thunders were published and with it an alert that the Antichrist would rise to power after he became 41.

His appearance would have to take place after Critical Mass, which refers to the opening of the 7th Seal, followed by the head wound to the first beast.

On October 7, 2023, about 4 months after William turned 41, Israel was attacked by Hamas in a provocation that brought us to the 12 day war in June of this year.

This military action against Iran appears to have fulfilled the first Trumpet, which is why I believe we are at the precipice of the head wound to the first beast!

While the Antichrist did not rise to power in his 41st year, I believe that Critical Mass is underway as we approach Obama's 666-adjusted birthday in late November.

We looked earlier at Clock time 6:57 which is the same minute as Obama's November birth vector on the 26th about three and a half days earlier.

Now we want to look at the number 666 itself as a Clock time, and how this provides a Watch window that carries us into 2026.

When we enter a value like 5 point 3 zero on the Clock, it automatically reads that number as 5 and a half hours, in other words it converts any base 10 value into a base 60 value.

Likewise, when I enter something like 2 point 58 on the Clock, it automatically reads that number as 2 hours and 58 minutes.

Now let's look at 6 point 6-6 on the Clock. This will convert to a value of six hours plus sixty-six minutes, or a Clock time of 7:06.

Clock time 7:06, therefore, represents the number 6-6-6!

This Clock time will open on January the 8th before closing on the 13th, giving us a watch window of about 48 days between late November and mid-January.

You may recall that 5:06 was the final Clock vector that fell into place in late 2021, a value associated with the rise of the first beast.

When we add 6 hours and 66 minutes to the Clock start time of 10 O'Clock, the result is 5:06.

If we then add the two hours of delay I was shown during the vision in 2010, the result is 7:06, or 6-6-6 on the Clock!

We may indeed arrive at the events of Revelation 13 just weeks from now, before the start of early harvest in the Spring of next year!

Please note that this audio message will be the introduction to a larger written Special Update in early November, so stay tuned for that.
