144,000 AND 31/ATLAS LINKED

Friends, there is a measurement we haven't talked about that refers to two particular dates, two particular days of the week, and two consecutive years.

I have known about this measurement since the vision in 2010 but because the timeline shown to me was past rather than future, it wasn't time to see how it might link to future time.

This measurement covers a period of 576 days, meaning leap years affect the days of the week at both end points, resulting in a pattern that is very sporadic, but also very specific.

Earlier this month, I was prompted to look up the particular week days represented in this pattern and then look forward to see what two consecutive years in the future would be an exact match.

You may wonder why I never thought to take this step years ago, but many measurements on the Clock have come about in this way, as my attention is directed by the Holy Spirit to focus on what is relevant at the time.

This particular calendar arrangement occurs only at intervals of every eleven and 16 or twelve and 17 years, and while it has not occurred once since the Clock Prophecy began in late 2010, that is about to change!

As it turns out, there is only one pair of years in this decade that will perfectly match the 576 day measurement shown to me in the vision, and that early date arrives in February of 2026!

Remember that several prophetic events are packed into Critical Mass, and with the first Trumpet likely fulfilled last June, one or more of these events appear to be tied to the 6-6-6 Window in mid-January.

I said some time ago that the second and third Trumpets are Spring events because the Man-child is caught up in the Spring, just as Jesus ascended in the Spring.

In my vision, the 144,000 were removed between these two Trumpets, and their exodus was complete at the sound of the third trumpet blast.

Since the third Trumpet must take place before the Summer Solstice, it may be that the 2nd Trumpet also occurs in the Spring, or it may occur in late Winter just days before the exodus begins.

The Church saints will follow in their own order beginning in the Summer, although it is possible there will be some overlap between these various harvest groups.

As for temple construction, I expect it to be completed in the year 2029 as that time frame is heavily featured in my latest work with the Clock.

As always, my understanding of the timeline is based on the Daniel Key in combination with careful interpretations of the vision I received in 2010.

The ET psyop is gaining momentum as the Internet explodes with anticipation that an official alien disclosure is imminent.

The stellar object we know as 3I/Atlas is believed by some to be a spacecraft surveying our planetary system, and the comet (or whatever it is) is now on its way to Jupiter.

In my last podcast, I shared a few numbers that were said to be a transmission from near Jupiter in conjunction with 3I/Atlas during its journey around the Sun.

After working many hours with these values on the Clock, I have discovered they provide an adjustment to the timeline that moves us forward into early 2026!

I will refer to the number 41573 from my earlier discussion as the Signal Code because it was received as a transmitted signal near Jupiter.

As a Clock time, 4.1573 vectors to December 30, 2023, but when it is added to critical points in Revelation 13 using the Daniel Key, it places us in the first half of 2026.

For example, Clock time 3:065 is the center point of Revelation 13:3, which is day 1,332 in the AM layer, falling on March 4, 2023.

When we add 4.1573 to 3.065, the result is March 20, 2026, which is the first day of Spring next year.

I shared earlier that when Clock time 2.51 (Rev 12:9) is added to 4.1573, the result is 6:66 on the Clock in the second week of January, meaning the Signal Code is mathematically linked to key codes on the Clock.

When I saw that the inverse of .41573 is 2.4054 – a key Clock metric for the birth of the Man-child in 2014 with a variance of just 27 seconds – I had no doubt this new information was a result of divine providence.

Yet another evidence of this is William's birth metric multiplied by the Signal Code:

$$4.1573 * 0.621 = 2.5816$$

Remember that Clock time 2.58 originally vectored to January 27, 2023 to mark the arrival of key events in Revelation 13.

If we now add 4.1573 back to 2.58 we move forward almost exactly three years:

$$2.5816 + 4.1573 = 7.139 = \text{February 12, 2026}$$

Or, if we divide the same birth metric into the Signal Code:

$$4.1573 / 0.621 = 7.0945$$

A result that points to January 23, 2026!

The Signal Code is pointing to tremendous activity in 2026 in combination with other Clock vectors having to do with Critical Mass and early harvest.

Based on these number studies, some of which are more complex than what you see here, I believe the first six months of 2026 will bring us fully into the events of the apocalypse.

In addition, I foresee the arrival of Elijah (452) on William's birth metric in 2027 (621) which is likely when temple construction will also begin:

$$4:52 + 4.1573 = 9.0773 = \text{June 21, 2027}$$

One final measurement you may want to know about appears to locate the 144,000 Hebrew princes on the timeline after they return from heaven to take over the nations.

This metric divides Obama's age by William's age as we go forward in time until the number 144 appears on the timeline as shown in the graph excerpt below:

These and many other metrics show we have run out of time and may soon be without access to the Internet, so be sure to share this message with others while you can!

More details about the Signal code and 3I/Atlas may be covered in an upcoming audio alert.

God bless as you continue to hear what the Spirit is saying to the churches:

"Behold, I come quickly!" (Rev 3:11)

Peter John Brandal
