

Podcast Transcript for January 31, 2026

Friends, this is a Clock Prophecy Alert for January 31, 2026.

To begin, we can find our place in the text of Revelation by simply subtracting the Signal Code from where we currently are on the Clock.

I had no idea such a thing would be possible when the PM layer ended last March, but the Holy Spirit has brought me up to speed with respect to timeline measurements as we come to the end of 24 hours on the Clock!

I will soon begin updating the 666 notification page every 6 days to show our current Clock time as well as where in the text of Revelation we are at the time of the update.

I wish I could adequately explain what has happened over the past few weeks, but let me share with you why I am fully convinced that we will reach Critical Mass this Spring.

The current Clock time is 7:11, and by subtracting the Signal Code, which is four hours, fifteen minutes, plus .73 of another minute, we can find where this occurred in the PM layer:

Clock time 7:11

- 4 hours, 15 minutes, and .73 minutes

= 2:56, rounded up slightly.

This vector occurred on January 16, 2023 in the PM layer where Revelation 12 verse 12 comes to a close, which is where we are today as we move through this final stage of prophetic time.

A special Update will be going up at the end of the week to discuss the final verses of Chapter 12, and the events in that passage that are about to happen.

My sense of urgency is based partly on the fact that the Signal Code places the opening of Revelation 13 on March 4, 2026, exactly where it must occur for the harvest to begin this Spring!

Now let's look at 2:40 on the Clock which was the man-child's birth at 5:41 on the morning of April 17, 2014.

Counting forward by 541 minutes from the Clock start time of 10 O'Clock takes us to 7:01.

This Clock time occurred on exactly the day that 3I-Atlas reached perigee with the Earth on December 19 of last year, and that is just one connection I have discovered linking the comet to the Sign of the Son of Man in heaven!

On exactly the date that the comet reaches Jupiter on March 16, we will enter Revelation 13:3, the verse that prophesies the rise of the first beast!

Whether or not this passage is fulfilled before or after the start of Spring, only time will tell.

While the rise of the Antichrist is triggered by the calamity that strikes Europe, William's initial role will bear little resemblance to the figure we see portrayed in Daniel, but that will change once his hour of rule with ten kings begins in 2027.

Next on my list of reasons is again the number 240, the man-child's time of birth on the Clock, using an operation called tetration.

We simply increase the number 2.40 by using its floating point exponent value, or 1.24, then iterate until we reach a terminal result that will become a Clock time.

Fifteen iterations of this calculation stops completely at 3:21 on the Clock, where it fell on May 6, 2023 inside Revelation 13:13, and by adding the Signal Code which is equal to 1,111.36 days, we reach a vector date of May 21, 2026!

This may well be the date of the third Trumpet near the end of the Man-child's catching up in late Spring, it may also be the date the first beast recovers from his deadly wound!

The new written update will be a bit long and should be uploaded in early February.

God bless as you continue to hear what the Spirit is saying to the churches:

"Behold, I come quickly!"
