

Podcast Transcript for February 14, 2026

Friends, as you know, the PM layer ended a year ago next month, and we have moved into the 7th hour, with only about two and three quarter hours, or roughly 720 days to go.

Until recently, I have used the term Clock End Date to mean the end of the PM layer, but the Clock actually ends after 24 prophetic hours (6,258 days) in early February of 2028:

Clock start date = Dec 17, 2010 + 24 x (2086 / 8) = Feb 4, 2028

In Romans 9:28, Paul paraphrases a passage in Isaiah, saying, "For he (referring to the Lord) will finish the work, and cut it short in righteousness: because a short work will the Lord make upon the earth."

I do not find any scripture in support of a 7 year Tribulation, but there is a great deal of scripture in support of a shortened Great Tribulation, as Jesus himself promised.

The reason so many have failed to reconstruct a contiguous calendar with agreed upon dates for things like years of Jubilee, should be obvious.

The Lord himself has hidden the means for proper timekeeping so that we would not be at the mercy of false teachers who claim vainly to have figured it out!

Now I want to share some amazing information about the divine structure of the Bible and how numbers on the Clock reveal our place on the timeline.

As you know, there are 24 hours in a day, but did you know there are 1,440 minutes in 24 hours?

The number 144,000 in the Bible is no accident, nor is it symbolic, it points to the inner workings of creation and to the authority of Christ over the Earth that he will delegate to the 144,000 Hebrew princes.

The divine structure of the Bible intersects with time itself, and points to the physical presence of the 144,000 throughout all the nations on Earth, as we read in Psalm 45.

"Instead of thy fathers shall be thy children, whom thou mayest make princes in all the earth."
(Psl 45:16)

When we pray the Lord's prayer, we are asking God to bring heaven to earth, and that cannot happen until heaven's army has removed those now in power.

Likewise, the number 666 is not symbolic, as we saw in the 7 Thunders, where this number is used in actual calculations to identify those who make up the false Trinity.

You may recall that Clock time 2:40 marked the arrival of the Man-child's birth on April 17, 2014, where it fell in Revelation 12:2.

Clock time 2:40 is a numeric analog to the number 24, and mirrors the completion of a 24 hour day, marking the Man-child's birth as we approach his twelfth birthday in April!

If we look at the exact verse metric for this birth, it occurs just inside the opening of Revelation 12:2 at verse mark 195.144, which was 5:41 AM that morning.

Yes, the number 144 is part of the Man-child's birth metric, and you can learn more by reading the Special Update on this topic in the Critical Clock Alerts section.

I haven't addressed the fact that the woman in this passage is ready to be delivered in verse two, however she does not give birth until verse 5, the same verse in which the Man-child is caught up.

What I believe this points to is the fact that the Man-child's physical birth must be followed by spiritual rebirth, which his catching up will bring to completion.

I see this expressed on the Clock often in frequent iterations of 2:40 as well as 2:45, the 5 minute gap that spans these three verses.

Now let's look at some other amazing Clock times that intersect with the journey of 3I-Atlas on its way to Jupiter.

We see Jupiter cited three times in the New Testament, all within the book of Acts, twice in Chapter 14 and once in Chapter 19.

It's not surprising that Chapter 14 is where we find the first of these citations, as Chapter 14 in Revelation is where we find the 144,000 making their first appearance after the rise of 666!

Acts 14, verses 12 and 13, each refer to Jupiter, and if we enter Acts 14:12 on the Clock as 1.412 and Acts 14:13 as 1.413, they both vector to Revelation 9:12 due to the fact they are nearly identical.

If, however, we add these times together, the result is Clock time 3.22 (with a trailing fraction of one half minute), and this vectors to Revelation 13:14 in the early Clock layers, the very Chapter that opens early in March of this year using the Signal Code!

Revelation 13:14 itself arrives on May 28, the same month we are likely to see the third Trumpet and the completion of the Man-child's departure!

I expect we will have confirmation by late March, meaning fulfillment of the early verses in Revelation 13, however if that hasn't happened by the time the Man-child reaches his 12th birthday in April, Critical Mass becomes more likely in the Fall, pushing early Rapture into 2027.

There are many reasons I don't expect that to be the case, but let me share just one of those reasons.

Since the comet has a link to Jupiter, I was led to add the Jupiter radius value to Clock time 3:22 in the same manner that we add the Signal Code to move forward in the text of Revelation.

Adding the Jupiter radius value of 4.3441 to Clock time 3:225 gives us 7:57, which may sound familiar if you heard my last Audio Alert, when I shared a dream in which I was told to subtract 2:43 (the time vector for Matthew 24:30) from the number 10.

This result using a base ten calculation is the same as adding the Jupiter radius value to the time value of 3.225 derived from two verses in Acts 14 citing Jupiter!

As I shared in the earlier alert, Clock time 7:57 vectors to August 18, 2026, whereas the Microsoft reference number for this date, which is 46,252, takes us to the Hebrew word at index 6252, which is a word meaning "Star!"

I am now convinced that Jupiter will indeed become a second Sun above the Earth in its role as the Sign of the Son of Man in heaven!

What about the third reference to Jupiter in Acts 19?

Inputting this to the Clock as 1.935, it converts to 2.335, which vectors to Revelation 11:16. When we add the Signal Code, the result falls in late October of last year, just 7 weeks before 3I-Atlas reached perigee with Earth.

You may not know that the comet was crossing the orbit of Pluto nearly four years ago, quite a while before it was detected last July, so any Clock vector near the date of perigee in December points to the Watch window we now find ourselves in.

So let's add all three time vectors relating to Jupiter in the book of Acts.

Clock time 3:22 plus 2:33 (along with their trailing fractions) we arrive at exactly 5:56 on the Clock, which fell late in the PM Layer on the Clock at Revelation 19:12.

Since 5:56 on the Clock fell in March of last year, I wanted to know where 3I-Atlas was at that point in its journey toward the Sun.

After doing some research, I discovered the comet was halfway between Saturn and Jupiter late last Winter, so it had already completed 80% of its journey toward the Sun after crossing Pluto's orbit before we even spotted it.

Once again, this vector reflects how far the comet had come and how quickly it was approaching the Earth throughout 2025, and that is why I believe all these vectors are pointing to the Jupiter rendezvous on March 16.

When we add the Signal Code to 5:56 it takes us about four weeks past the Clock end date in early 2028, which could mean that Jupiter will play a somewhat different role at that time.

I failed to mention in the Special Update how the Matthew 24:30 Clock vector also gives us the date of the Man-child's 12th birthday this year.

This uses a calculation that isn't typical in my work with the Clock because it adds a standard Clock time to its military analogue, so I will include an exhibit in the PDF upload a bit later.

Adding 24.30 (referring to Matthew 24:30) to the standard Clock time of 2.43, we get 26.73.

The Clock subtracts 24 before converting the result to a base 60 value, thus 26.73 becomes 2.73, which then converts to 3.13 after subtracting .6 and adding one.

The significance of 3:13 on the Clock is that it fell on April 2, 2023 in the PM layer, and when we add the Signal Code we come to exactly the date of the Man-child's 12th birthday on April 17, 2026!

I hope you have been blessed by this update, and I pray you will find yourself in the earliest harvest group, as we may reach our moment of redemption this very year!

God bless as you continue to hear what the Spirit is saying to the churches:

"Behold, I come quickly!"

Peter John Brandal

EXHIBIT

24.3 (Military time format)
+ 2.43 (normal Clock format)
= 26.73 - 24 = 2.73 - .6 + 1 = 3.13

PM Layer start date = 07.12.19 (10 O'Clock)
10:00 to 3:13 = 313 minutes
313 x (2086 / 480) = 1,360.24 days
07.12.19 + 1,360.24 + 1,111.36 = April 17, 2026
