

Podcast Transcript for February 5, 2026

Friends, this is a Clock Prophecy Alert for February 5, 2026.

This message will help prepare you for the written update on Friday, as it contains details on matters of great importance I want to be sure you understand.

To begin, while I don't know the date of any future event, I can tell you when particular passages will arrive on the Clock and the dates associated with them.

As we get closer to the end of the timeline, the fulfillment window shrinks, meaning gaps between signs and what those signs are pointing to get smaller.

You should think of Clock times as a type of sign.

On Saturday, we will enter Revelation 12:14, a very important verse that corresponds to Clock time 2:58.

This was the Clock time shown to me in the vision with no hint of a year, but was associated with a rush to safety and broken glass.

In the AM layer, this fell in July of 2014, and in the PM layer it fell in January of 2023.

As you know, the two hour delay that began at 5:06 in 2024 ended a few weeks ago at 7:06 when we arrived at 666 on the Clock.

Until now, the best timeline clue we had was the end of the half hour of silence in heaven where the PM layer of the Clock ended last March.

After that, it was the 12 day war in 2025 that I believe fulfilled the first Trumpet.

<<>>

In late 2025, a comet named 3I Atlas was spotted passing through our solar system, showing odd behavior that drew enormous attention from amateur astronomers around the world.

At the same time, NASA seemed to downplay the cosmic visitor, but a physicist named Avi Loeb began raising awareness about it, expressing his view that it might be under intelligent control.

I was not impressed by any of this due to the ET psyop that has been underway for years, and the possibility that Loeb himself might be a part of that conspiracy.

But a few months ago, the Lord led me to dig deeper, and so I did. Having avoided Loeb's interviews for months, I began to go through his commentaries for any information I might find useful.

That was how the Signal Code came to my attention, a number that is nearly identical to the number of days in one minute on the Clock, and other properties that I won't go into now.

The Signal Code intersects with key codes on the Clock in a way that isn't random, making it possible for us to know where we are in the text of Revelation!

My use of this number highlights the birth dates of Obama and the Prince in various years, but especially that of the Man-child this year and next, as well as March 16, August 18, and December 10.

Revelation 12:14 opens on Saturday, a prophecy for the flight of the woman on two wings of an eagle, a prophecy involving the US military under President Trump in an emergency airlift that carries key Israeli officials to safety!

While fulfillment could occur inside the six and a quarter days this verse remains on the Clock, fulfillment could also take place near the time 3I-Atlas reaches Jupiter in March, or possibly later.

Revelation 13 opens on March 4th, and verse three of that chapter opens a few minutes before midnight on March the 16th.

This date in March seems to represent an anchor point across many Clock measurements, similar to the birth of the first and second beast.

Several nights ago, during a dream, the Lord instructed me to perform a very specific thing, he told me to subtract Clock time 2:43 from 10 O'Clock.

I will be sharing the importance of Clock time 2:43 in my Special Update coming out tomorrow!

After getting out of bed that morning, I went to my computer and used the Clock to do the calculation, which resulted in Clock time 7:57 and a date vector of August 18, 2026!

The Microsoft reference number for this date is 46,252, so I checked the word corresponding to 6252 in the biblical Hebrew in Strongs and found that it is a proper noun meaning, *star!*

I will go into this more fully in the Special Update coming out on Friday!

We are getting close to the start of early harvest, so share this message with others and continue to hear what the Spirit is saying to the churches:

Behold, I come quickly!

Peter John Brandal
