

Podcast Transcript for April 22, 2026

Friends, this is a Clock Prophecy Alert for April 22, 2026.

Despite these back and forth talks between the US and Iran, a climax to the ongoing military campaign will move us to Critical Mass in due time.

You may recall that I talked about 68 days for the arrival of Revelation 19:15 at the end of the ninth hour on the Clock using the Signal Code.

The Signal Code is giving us our place on the timeline inside the second black ring, a period of 1,043 days that followed the end of the PM layer on the Clock.

At the end of the ninth hour, we will be in Revelation 19:4, just 11 verses from verse 15, which is the final verse the Clock measures, a passage that describes the battle of Armageddon.

The end of the ninth hour in February of 2028 may bring us to Armageddon 68 days later in the month of April just two years from now.

I believe Great Tribulation is about to begin and will continue until the Spring of 2028 where the time will be cut short, as Jesus said.

If Critical Mass should occur in the second half of this year, then based on my understanding the harvest will not begin until the Spring of 2027.

In either case, I still expect Armageddon to take place in the first half of 2028, for one because the Clock resets to Chapter 1 at that time.

The Jewish orthodoxy is primed for Messiah's appearance at any moment, but they clearly expect it to occur sooner rather than later, which is why talk of the third temple has reached a fever pitch.

In a recent update, I talked about measurements in Ezekiel suggesting the start of temple construction this September, which would make perfect sense if the 2nd Trumpet decimates Europe at some point in the next eight weeks.

The controversy over Iran's intention to develop a nuclear weapon ignores the reality that the IRGC has already achieved this.

It isn't necessary to have an atomic detonation to set off a nuclear bomb, a normal rocket with conventional explosives can be used to spread radioactive uranium over a small country the size of Israel, killing thousands, or even millions of people.

This could well be what triggers the airlift out of Jerusalem, followed by all the events of Critical Mass.

I know that many discussions of the timeline point to 2032 or some later year for the return of Christ, at which point 7 years are subtracted in an attempt to predict when the Rapture will occur.

Since God himself has confused the calendars, none of these calculations will prove correct, whereas the Clock measures the text of Revelation itself to show where we are in real time.

Lord willing, the next time I reach out to you will be after we have reached Critical Mass!

God bless as you continue to hear what the Spirit is saying to the churches:

Behold, I come quickly!

Peter John Brandal
