

Podcast Transcript

for June 26, 2026

Friends, in the February 14 Podcast, we looked at an August vector date pointing to the Sign of the Son of Man in heaven, and we saw how the Hebrew word for "star" is linked to this Clock measurement.

I believe this will take us fully into the ET psyop already underway, which the globalists will use to portray Christ and his divine army as aliens attacking the Earth!

I'm not saying this must occur during the Summer, however the heavenly host must appear soon for the harvest to begin.

Now let's revisit how end time prophecy deals with the length of our final generation.

In my own prophetic ministry, I have talked about the importance of 1942 in modern Jewish history, when Israel's first Prime Minister declared the restoration of a Jewish homeland on May 11th of that year.

A 70 year count from that decree brought us to the Summer of 2012 in the Clock's AM layer where it marked the opening of the first Seal early that August.

My book goes into quite a bit of detail about that.

End time teachers have used different assumptions about the length of a generation to arrive at various end points, some taking us out as far as 2068.

For obvious reasons, my main point of reference is the Clock prophecy, which has shown us where we are on the timeline in terms of prophetic events, but not with respect to the time that we have remaining.

Earlier I mentioned year 2030 as the likely end point for 2,000 years from the Lord's crucifixion, which would be in agreement with Jewish eschatology as far as the arrival of the Messiah at the end of 6,000 years of human history.

Orthodox Judaism applies a 214 year offset to the Jewish calendar, which is why many orthodox Jews today believe we are at the start of the Messianic era in 2026!

Current Jewish year: 5786
Calendar Offset: + 214
6,000

I have discovered new historical support for this based on a notification by the Israeli government in 1950, when it declared that Jerusalem would be known from that point as its Capital City.

This took place on January 23, 1950.

Some will point out that Jerusalem in 1950 was still divided into East and West, however that does not mean God recognized such an arrangement, therefore I believe this declaration carries the same weight as the decree for Zion's rebirth in 1942.

Psalm 90:10 gives us a generational time frame of up to 80 years, and if we add 80 years to this date in 1950, the result is January 22, 2030!

This is slightly less than two years after the Clock comes to a close in February of 2028, and I don't believe that to be a coincidence.

What follows is why I hope you will share this message with others while we still have access to the Internet.

When we subtract 1,260 days from this date in January of 2030, the result is August 11, 2026, just one week before we reach Clock measurements for the "star" that I believe to be the Sign of the Son of Man in heaven in Matthew 24:30!

I believe early 2030 may bring us to the final Trumpet of Revelation, and that this will mark the completion of the third temple, and possibly the end of harvest itself should it last that long.

The next prophetic event on our calendar is the airlift out of Jerusalem, which may be a result of retaliation by Iran (or others) due to renewed US military action in the Middle East.

The head wound event will follow soon after, then the second and third Trumpets, even as the Sign of the Son of Man in heaven appears in the skies above us!

The 2nd Trumpet could actually occur this year, as well, however I believe it most likely will take place in early 2027 near the catching up of the Man-child at the third Trumpet next Spring.

Stay tuned for new updates as you continue to hear what the Spirit is saying to the churches:

Behold, I come quickly!
