for June 7, 2026

Friends, this is a Clock Prophecy Alert for June 7, 2026.

With two weeks of Spring remaining, we continue to Watch for the start of early harvest, but in this message we want to look at a Clock vector in the ninth hour just before William turns 45.

We talked before about the number 666 and how the reciprocal of verse number 222, which is Revelation 13:11, is the number 45, which will be William's age one year from now.

In fact, if we express William's birth date as 621 and subtract it from 666, the result is also 45!

In this message, I want to share the only remaining placement for 666 on the Clock, which will take place one year from next Sunday.

This vector is at 9:06 prophetically, or six hundred and 66 minutes past the Clock start time of 10 O'Clock, which relative to the early Clock layer was in the first black ring during the month of November in 2018.

Relative to where we are currently inside the second black ring, 9:06 falls on June 14, 2027, just one week before William becomes 45 years of age!

I want to point out that Clock time 9:06 opens at exactly 7:48 AM on June 14, almost exactly 6.66 days from midnight on the morning of William's birth day on the Summer Solstice next year!

I believe we can still reach Critical Mass before the Summer, however if the the 2nd Trumpet occurs in the second half of 2026, that will mean the 3rd Trumpet is pushed into the Spring of next year.

We have no other 666 vector points on the Clock after 9:06, and since this Clock time converges with William's 45th birthday in 2027, that means the timeline is near completion.

I received clarification on my original vision, which tells me the head wound will occur before the 2nd Trumpet, but that sequence begins with an airlift out of Jerusalem as recorded in Revelation 12:14.

All of this is why we are watching events in the Middle East so closely, and why Iran plays a major role in what comes next.

The 7 year Tribulation doctrine is becoming more difficult to maintain due to the math involved, for one because 2,000 years from the Lord's crucifixion is most likely the year 2030.

As you know, I teach that a 7 year Tribulation is based on a misread of Daniel 9:25 and that if it were true, John would have seen the Abomination of Desolation in the book of Revelation, but he doesn't.

I have addressed this in numerous written updates over the past few years, to explain why the Messianic temple in Revelation 11 cannot be polluted or destroyed since Jesus must occupy it when he returns.

If we come to the end of 2,000 years in 2030 as I believe we will, the Clock end date in early 2028 makes perfect sense, especially if the harvest comes to end before the completion of the temple itself.

Please note that I have updated the "About the Clock Prophecy" page with key dates for this prophecy message to reflect the significance of the ninth hour on the Clock.

God bless as you continue to hear what the Spirit is saying to the churches:

Behold, I come quickly!

Peter John Brandal
