

Podcast Transcript for August 28, 2026

Friends, we entered the 1,260 day reverse count from the end of an 80 year generation on August 12th, as explained in the previous Special Update.

I believe Jerusalem is the key to our final timeline measurement, and this measurement concludes in early 2030, two years after the Clock ends in February of 2028.

The final group of harvest (meaning the final Rapture group) may converge with the Clock end date in early 2028, or it may be that the harvest extends further into the timeline closer to the 7th Trumpet.

We had previously looked at a 726 day period of harvest from beginning to end, and I continue to find this compelling because it aligns perfectly between early Spring in 2027 and the closing days of Winter in early 2029.

Heavenly signs have continued since Comet 3I/Atlas passed near Earth in late 2025 and now Comet 220P/McNaught, which will come closest to us on October 12, 2026.

A third comet, named Tempel 2, has a center orbital axis of 3.065 Astronomical Units, an identical match to Clock time 3.065 which exactly marks the center of Revelation 13:3!

Tempel 2 reached this point in its orbit in mid-September of 2025 as it moved closer to the Sun, and it will be at this point again on its outbound journey in the Spring of next year.

This would suggest a fulfillment window that opened six months before the Signal Code marked the arrival of Revelation 13:3 on the Clock in March, so we may have an answer to the 2 hour delay we have been trying to locate on the timeline.

In other words, adding 521 days to September 15, 2025 may bring us to the conclusion of that window just six months from now.

As for Comet 220P/McNaught, its perigee with the Earth on October 12 may signal the airlift we have been watching for since early this year.

If you have been wondering where Pope Leo falls on the prophetic timeline, we find him on the Clock where he is referred to in Revelation 19:20.

Unlike the first and second beast, the title of False Prophet refers to the head of Mystery Babylon, meaning every Pope who has occupied the Vatican over the centuries.

The death of Pope Francis brought an end to his role as the False Prophet before transferring it to Pope Leo, who now sits on his throne at the Vatican.

In Revelation 19:20 we see the False Prophet cited a second time, and using this verse metric we get a Clock result of May 1, 2025, just 7 days before he was elected in Rome on the 8th of May last year!

This calculation does not require use of the Signal Code and at the end of the PDF you will see an exhibit for this Clock matrix, as well as a complete breakdown of the calculation.

Since May in 2025 was shortly after the end of the PM layer in late March, it falls inside the black ring period while being displayed in the PM result box.

I have also used Pope Leo's birth date to derive a similar result that fell in early June of last year.

Now let's take a moment to clarify what Critical Mass means as we move through the timeline.

The opening of the 7th Seal is actually the first stage of Critical Mass, and Clock measurements have already affirmed that the start of War with Iran in 2025 marked the blowing of the first Trumpet.

The airlift out of Jerusalem in Revelation 12:14 and the head wound event just six verses later will be the middle stage of Critical Mass, and this stage is necessary for the start of early harvest.

The final stage of Critical Mass is marked by the 2nd and 3rd Trumpets, which brings the decimation of Europe and the catching up of the 144,000 Hebrew princes, as well as the rise of the Antichrist.

It's interesting that if we add the two hour delay to the end of the 12 day military campaign in Iran, the result is Barack Obama's birthday this Fall!

I never expected there would be this much time between the first and second trumpets, but that is where the two hour delay appears to be hiding.

Although William's 41st year did not bring us fully into the events of Critical Mass as I had expected, it brought us instead to the Hamas attack in southern Israel shortly after William's 41st birthday.

In my vision, the number 41 was associated with a large explosion, which certainly followed when both Israel and the US engaged with Iran shortly thereafter, however the date of October 7, 2023 converged with Revelation 14:20 in the PM layer of the Clock.

Let's read that passage to see how it prophesied what happened that day:

"And the winepress was trodden without the city, and blood came out of the winepress, even unto the horse bridles, by the space of a thousand and six hundred furlongs." (Rev 14:20)

I don't believe this scripture has been fulfilled completely, in fact we are just ten verses away from the same passage using the Signal Code as we move through the black ring on the Clock of the Four Night Watches.

It's also interesting that on August 31 we will be exactly two hours from the Clock end date, so a great deal is in store for us over these next 18 months!

The focus dates I provided in the last Alert are only a guide to help us see why some of these events may occur in 2026, whereas if we reach the middle stage of Critical Mass by December, we won't be needing a date list for 2027.

The key date window in December on the Clock is so compelling that we may see an escalation to the second stage of Critical Mass around the holiday.

Regarding the battle of Armageddon, this falls on the Clock at about 8:47 in late March, but I expect this to arrive somewhat later on the timeline, just as the temple itself may not be completed until after the Antichrist has been defeated.

My new song, Jesus at the Door, is going up in a bit, so I pray it will be a blessing to you!

Stay tuned as you continue to hear what the Spirit is saying to the churches:

“Behold, I come quickly!”

Peter John Brandal

EXHIBIT: POPE LEO REV 19:20 MATRIX

TIME QUERY	DATE QUERY	VERSE QUERY
6.08	5/1/2025	340
MINUTES	CLOCK TIME	CLOCK TIME
488		6.08
DAYS (AM)	<u>6.08</u>	DAYS (PM)
2,121		5,250
AM LAYER	-12 HOURS	AM LAYER
10/6/2016	3/13/2008	10/6/2016
PM LAYER	+12 HOURS	PM LAYER
5/1/2025	11/24/2033	5/1/2025
340.00	Rev 19:20	6:24:00 PM

Here is a break-down of the full calculation:

Revelation 19:20 = verse 340

$340 \times (2,520 / 404) = 2,120.8$ days

Clock Start Date = Dec 17, 2010 + 2,120.8 = Oct 6, 2016 (AM layer)

Oct 6, 2016 + 3,129 days (final Clock layer) = May 1, 2025 (PM layer / Black Ring)
