

Podcast Transcript

for October 3, 2026

Friends, I have become convinced that a preemptive gathering will indeed occur this Fall or Winter based on our review of the text of Revelation 18 in the last update.

We forget how many verses in Revelation actually refer to one or more harvest events, in fact I count at least four, a reminder of the four part harvest Jesus taught in Matthew 20.

The first such passage is when Jesus promises a door of escape for the Church of Philadelphia in Revelation 3:11, the verse that I use in all my sign offs.

The next rapture verse is when John goes through a window in heaven at the opening of Revelation 4.

We might see the door in Chapter 3 and the window in Chapter 4 as the initial and then complete departure of Spring barley in harvest Group One.

Notice how close these passages are together, just 12 verses apart, which on the Clock is equal to about 75 days.

Another harvest vector shows up in Chapter 11 verse 12, where the two witnesses are resurrected in an obvious reference to harvest group three.

Keep in mind that the Summer harvest (harvest Group 2) is itself a divided group, which is why the virgins in Matthew 25 are separated and Jesus warns them to watch for him when he returns *FROM* the wedding in Luke 12:36.

This could refer to a literal dividing of the seasons, as well, meaning a second Summer may be required for the completion of harvest Group Two.

The harpazo in Revelation 12:5 is an obvious reference to the catching up of the Man-child, who are the 144,000 Hebrew princes that become 13 in April.

Revelation 16:15 is another harvest warning, see the exhibit at the end of the PDF linking this passage to the first day of Spring at exactly midnight on March 20, 2027!

As current events move us closer to the second stage of Critical Mass, we can see why the mid-term elections in November are worrisome for the globalists.

In my vision, the head wound occurs before any departures, so if Revelation 13:3 is fulfilled before November 3rd, an early catching up is likely during the key date window in December.

Comet Temple-2 was at its mid-axis point on September 15, 2025, and adding two hours takes us into late February, so I expect the fulfillment of this passage between now and late Winter.

Another comet, called 220P/ McNaught, will reach perigee with the Earth on October 12th, and you may recall that this date intersects at zero in one particular set of Clock measurements.

October 12 is making all the rounds on Rapture prediction channels apparently due to some sort of calendar adjustment, but I don't expect any departures on October 12 unless the head wound event takes place first.

If somehow we reach the end of 2026 without the dam breaking, the purpose of the key date window in December may have to do with the revelation of Christ to the Hebrew princes before they are caught up in the new year.

As for the battle of Armageddon, its placement in Revelation 16 falls in late March and, due to events in the verse immediately after it, we may see real-time fulfillment this Spring.

The greatest of all earthquakes occurs in verse 17, and that would require it to be larger than the magnitude 9.5 quake that hit Chile in May of 1960.

The only thing that can cause an earthquake at that scale would be a super-volcano or a meteor impact, either of which is what we are expecting at the second Trumpet.

The second Trumpet is linked to the removal of the 144,000, therefore it and the war of Ezekiel 38 may occur inside the same fulfillment window next Spring!

Stay tuned as you continue to hear what the Spirit is saying to the churches:

Behold, I come quickly!

Peter John Brandal
